OBJECTIVE

Motivated and adaptable developer with strong experience in Python, Artificial Intelligence, and full-stack development. Skilled in building intelligent systems, AI automation, supervised fine-tuning (SFT) workflows, scalable web applications, and supporting model training and data validation.

SKILLS

- Python, FastAPI, REST APIs, LLMs
- AI Agents, OpenAI SDK, Prompt Engineering, SFT Pipelines
- HTML, CSS3, JavaScript, React.js, Next.js
- Tailwind CSS, MERN Stack Development
- Machine Learning, Data Processing, Model Evaluation
- Git, GitHub, API Integration
- Problem Solving, Debugging, Teamwork

EXPERIENCE

Fiverr — Freelance Full Stack & AI Developer | 2025 – Present

- Delivered MERN websites, AI automation systems, and ML-powered chatbots for global clients.
- Developed responsive applications and ensured timely delivery.

Xrossapps — Python & AI Developer (Contract) | 2026 – Present

- Created high-quality SFT demonstrations and annotated OSWorld interaction data.
- Validated JSON workflows across Thunderbird, GIMP, Terminal, and system tools.
- Built automation systems and integrated AI-driven backend features.

Code Alpha — Python Developer Intern | 2025

- Created automation tools and optimized scripting solutions for real-world use cases.

Elevvo Pathways — Machine Learning Intern | 2025

- Developed predictive ML models with feature engineering and performance optimization.

PROJECTS

Diabetes Prediction System — Python, ML, Flask

- Built ML models for patient risk prediction using advanced preprocessing and validation techniques.

E-Commerce Web App — React, Tailwind, Chatbot Integration

- Developed responsive UI, cart system, and integrated AI chatbot for customer assistance.

EDUCATION

BS in Artificial Intelligence — Bahria University

Karachi (2024–2028) | CGPA: 3.27

CERTIFICATIONS

MERN Stack Development — SMIT

2023–2025

AI, Web3 & Metaverse — Governor House

2024–Present
